

Sheshequin Township Meeting Minutes November 26, 2024

Meeting opened at 12: Noon

In attendance were Chairman Lafy, Vice-Chair Richter and Member Smith. Due to the absence of Ms. Kepner, Vice-Chair Richter presided and Lafy acted as secretary.

Under Old Business, the budgets were addressed. After meaningful deliberations, deficit budgets were passed for both the General Fund and Liquid Fuels Fund. The Act 13 and Escrow Funds were both "in-the-black." No other sources of income are available to the township that the supervisors knew of. The deficits would be covered by cash reserves held in several bank accounts.

Because of the deficits, which were largely blamed on the overall rate of inflation, it was agreed to raise taxes enough to collect an additional \$80,000. Part of that increase would go towards balancing the budgets going forward and part to future road/bridge/infrastructure projects. JS suggested we have Lori Kepner, township secretary, discover the necessary steps we need to implement the same. JR/JS
